Note: The Company changed its financial year end from 30 June to 31 December (please refer to the announcement no 00178 dated 23rd October 2013). Accordingly, the financial period (FP 2012-13) will now cover 18 months period from 1 July 2012 to 30 September 2013. Therefore this announcement is covering 15 months period from 1 July 2012 to 30 September 2013.

# Note 1

The decrease in turnover and direct service fees and cost of goods sold for the quarter ended 30th September 2013 ("Q5 2013") and fifteen months ended 30th September 2013 ("YTD 2013") was mainly due to lower revenue generated by the mobility business on account of changing of company strategy of moving away from 2G phones to 3G and smart phones portfolio as consumer preference has changed. This change of portfolio resulted in east the company will need ramp up time to cater to a new dealer ecosystem, product portfolio, training of stakeholders and implementation. Further, the company has shifted management's focus towards retailing, which is higher margin business and accordingly is moving away from distribution of third party Mobility products under Affinity Group. This change in management's focus has also resulted in a decrease in revenue contributed by the distribution business in Q5 2013 and YTD 2013. Accordingly, the company has moved out of Blackberry distribution business, as this has low margin. However, the company continues to retail Blackberry products, which has higher margin.

In addition, S Mobility Limited, a related party has not been buying mobility products through the company. Revenue from S Mobility amounted to US\$ Nil and US\$21.3 million in corresponding quarter ended 30th September 2012 and fifteen months ended 30th September 2012 ("FP 2012") respectively.

# Note 3

As disclosed previously, gain on disposal of subsidiary during YTD 2013 arose mainly due to sale of one of its subsidiaries Spice BPO Services Limited ("SBPO") on 24 January 2013. (Please refer to announcement 00033 dated 24th January 2013.)

# Note 4

As disclosed previously, the waiver of loan during FP 2012 was related to loan procured by the vendor of Newtel Group to Newtel Corporation Company Limited, a wholly-owned subsidiary of S i2i Limited.

<sup>\*-</sup> Certain prior year figures have been reclassified to conform with current year's presentation.

#### Note 5

As disclosed previously, in accordance with the Supplemental Agreement dated 5th March 2012 to the Share Purchase Agreement between the vendors of Affinity Group and the company, the deferred purchase consideration ceased to be payable. Accordingly, the liability of US\$10.0 million had been reversed in FP 2012. For more information with regards to the Supplemental Agreement, refer to announcement no 00158 dated 5th March 2012.

#### Note 6

The decrease in commissions and other selling expenses was mainly due to decrease in distribution of voice services and sale of mobility products.

#### Note 7

The decrease in personnel costs in Q5 2013 and YTD 2013 was mainly due to cost cutting measures adopted by the Group, as part of its initiative to rein in costs. The decrease in YTD 2013 was partly offset by provision of US\$0.6 million and US\$1.9 million towards one-time severance cost to employees of Newtel Group and Affinity Group respectively recognised during the period.

#### Note 8

The decrease in amortisation of intangible assets was mainly due to lower carrying value of intangible assets consequent to impairment of intangible assets during FP 2012.

#### Note 9

The decrease in marketing expenses was mainly due to all around reduction in marketing expenses, in line with cost cutting measures adopted by the Group to rein in costs.

#### Note 10

The foreign exchange movement recognised in Q5 2013 and YTD 2013 was mainly due to unrealised and realised foreign exchange gain/loss incurred on fluctuation of USD against SGD, MYR, THB, IDR and INR.

# N.M. - Not Meaningful

# Note 12

The decrease in allowance for doubtful debts during Q5 2013 and YTD 2013 was mainly due to higher provisions recognised by the Group for the corresponding quarter Q5 2012 and period FP 2012 based upon then review of collectibility of receivables.

# Note 13

During Q4 2013, in accordance with FRS 36 "Impairment of Assets", the Group had carried out impairment testing. Resultantly, Goodwill in case of Affinity Group had been impaired by US\$ 6.6 million (FP 2012 - US\$ 23.1 million) to the extent of Carrying Amounts exceeded the Recoverable Amounts. The impairment charge in respect of Affinity Group had primarily been on account of changing preference of customers for mobility products on the 3G platform rather than the 2G platform, which most of the products of the Affinity Group still were built on. Further, introduction of new regulations in Indonesia, which required import licenses to be reapplied and additional clearances from various Government agencies to be obtained for each shipment, resulted in a longer lead time in procuring new supplies during Q4 2013 leading to lower revenue. Lower volumes during YTD 2013 coupled with, though extraordinary and temporary event of changes in regulations adversely affected the assessment of impairment testing.

# Note 14

As disclosed previously, in accordance with the Termination Agreement dated 5th March 2012 to the Management Incentive Agreement between the Managers of Affinity Group and the Company, a sum of US\$10.0 million was paid as consideration for the Termination Agreement during FP 2012.

# Note 15

As disclosed previously, US\$8.7 million had been written off in respect of a customer in the quarter ended 31st March 2012.

# Note 16

The movement in taxation for YTD 2013 was mainly due to reversal of deferred tax liabilities during FP 2012, consequent to impairment of certain intangible assets and provision of corporate tax for Bharat IT Services Limited

Note 17
Mobile Concepts (M) Sdn Bhd
As disclosed previously, in Q4 2012, the Group had decided to dispose of its investment in Mobile Concept (M) Sdn. Bhd. ("MCM") for a consideration of US\$300,000. The disposal of MCM was subsequently completed on 17th July 2012.

# Note 19

The decrease in property, plant and equipment was mainly due to depreciation of US\$3.8 million recognised in YTD 2013, disposal of property, plant and equipment of US\$0.5 million relating to SBPO in January 2013 and impairment of certain property, plant and equipment by Newtel Group of US\$0.3 million.

The decrease in intangible assets was mainly due to the amortisation of US\$5.3 million recognised in YTD 2013 and impairment of certain intangible assets including US\$6.6 million on account of Goodwill in case of Affinity Group. (Also refer to Note 13 above). This was partially offset by the goodwill recognised on acquisition of Mobile Services International Co. Ltd ("MSI China") and CSL Communication (Shenzhen) Co., Ltd ("CSL Shenzhen") in Q1 2013.

# Note 21

Consequent to impairment exercise, the company had made provision of US\$40.4 million for impairment of its investment in Affinity Group. The decrease in investment in subsidiaries was also due to the disposal of Mobile Concepts (M) Sdn Bhd ("MCM") on 17th July 2012 and liquidation of MRTC on 10th December 2012 & Spice i2i Middle East FZE on 30th May 2013. This was partially offset by the acquisition of MSI China and CSL Shenzhen on 9th July 2012 and 2nd August 2012 respectively.

The investment in SBPO, which was disposed off on 24th January 2013, had been fully impaired on 30th June 2012.

The decrease in stocks of US\$13.0 million was mainly due to stock reduction of US\$14.3 million in Mobility business, which was in line with corresponding lower revenue generated during the year. This was partially offset by an increase in stocks of the Computing business due to higher purchases for fulfilment of orders in hand.

# Note 23

The decrease in trade receivables was mainly due to:

- 1) Decline in revenue in mobility products
- 2) Repayment of outstanding trade receivables by S Mobility Ltd of US\$1.8 million. (Please refer to announcement 00134 dated 3rd December 2012)

This was partially offset by the increase in trade receivables by the computing business due to higher transactional sales.

The decrease in other debtors and deposits was mainly due to lower deposits paid to vendors for purchases of mobility products, refund of deposit upon vacating of office space and disposal of SBPO.

#### Note 25

The decrease in prepayments was mainly due to lower purchases made by the mobility business, resulting also from decrease in revenue from mobility business.

#### Note 26

The decrease in trade creditors was mainly due to lower purchases made by the mobility business, resulting also from decrease in revenue from mobility business. In addition, disposal of SBPO has resulted in decrease in trade creditors.

#### Note 27

The decrease in other creditors and accruals was mainly due to disposal of Spice BPO and lower accruals recognised due to decrease in distribution of voice services and mobility products. This was partially offset by increase in accruals by computing business for services received but not yet billed as at financial period end.

#### Note 28

The decrease in loans and borrowings and consequently finance cost was mainly due to disposal of Spice BPO and repayment of US\$33.3 million of its loans by Affinity Group. Reduction in loans by Affinity Group was mainly on account of change in the management's focus on the retail and distribution of third party Mobility products and lower volumes of its mobility products under Affinity Group.

This was partially offset by the increase in borrowings by the computing business on account of higher transactional sales.

A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

The group recorded a turnover of US\$119.2 million and US\$670.1 million in Q5 2013 and YTD 2013 respectively – a decrease of 25.6% and 32.7% over the corresponding quarter and period respectively. The decrease was mainly due to lower revenue generated by the mobility business on account of changing of company strategy of moving away from 2G phones to 3G and smart phones portfolio as consumer preference has changed. This change of portfolio resulted in lower revenue as the company will need ramp up time to cater to a new dealer ecosystem, product portfolio, training of stakeholders and implementation.

Further, the company has shifted management's focus towards retailing, which is higher margin business and accordingly is moving away from distribution of third party Mobility products under Affinity Group. This change in management's focus has also resulted in a decrease in revenue contributed by the distribution business in Q5 2013 and YTD 2013. The company has moved out of Blackberry distribution business, as this has low margin. However, the company continues to retail Blackberry products, which has higher margin. In addition, S Mobility Limited, a related party has not been buying mobility products through the company during YTD 2013, which was the case in the previous corresponding year.

There was a decrease in overheads mainly due to certain cost cutting measures initiated by the Group in its effort to rein in costs.

There was a foreign exchange loss of US\$0.6 million and gain of US\$1.0 million in Q5 2013 and YTD 2013 respectively on account of movement of SGD, MYR, IDR, INR and THB against USD.

The Group had decided to dispose of its investment in Mobile Concept (M) Sdn. Bhd. ("MCM") for a consideration of US\$300,000 during the year ended 30th June 2012. The disposal of MCM was completed on 17 July 2012. The Group had decided to voluntarily liquidate its dormant wholly-owned subsidiary, Mediaring TC Inc, a company registered in Japan. The liquidation was completed on 10th December 2012 resulting in a gain of US\$0.4 million.

The Group had also decided to dispose of its investment in Spice BPO Services Limited ("SBPO") for a consideration of US\$1. The disposal of SBPO had been approved by the shareholders on 25th October 2012. The sale was completed on 24th January 2013 resulting a gain of US\$7.8 million. (Please refer to announcement 00033 dated 24th January 2013)

The Group had decided to voluntarily liquidate its dormant wholly-owned subsidiary, Spice i2i Middle East FZE, a company registered in Dubai. The liquidation was completed on 30th May 2013. (Please refer to announcement 00089 dated 31st May 2013.)

During Q4 2013, the Group carried out impairment testing in accordance with FRS 36. Resultantly, Goodwill in case of Affinity Group had been impaired by US\$6.6 million (FP 2012 - US\$ 23.1 million ) to the extent of Carrying Amounts exceeded the Recoverable Amounts.

Resultantly, the Group incurred a loss before tax of US\$3.0 million and a loss before tax of US\$32.5 million in Q5 2013 and YTD 2013 respectively, as against the loss before tax of US\$4.7 million and US\$182.9 million over the corresponding quarter and period respectively.

Decrease in stocks, trade receivables and trade creditors as at 30 September 2013 was mainly due to change in the management's focus on the retail and distribution of Mobility products under Affinity Group. The decrease in loans and borrowings due to the repayment of major portion of its loans by Affinity Group was mainly on account of change in the management's focus on the retail and distribution of third party Mobility products and lower volumes of its Mobility products under Affinity Group.

Net assets of the Group has decreased to US\$114.2 million as at 30 September 2013 from US\$156.1 million as at 30 June 2012.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

There was no forecast or prospect statement disclosed to shareholders previously.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group expects that consumers increasingly will prefer mobile devices built on the 3G platform and also prefer Android platform. The Group will therefore continue to launch new products that respond to this expected shift in consumer demand. The company is focused on launching and promoting 3G Android phones in the markets of Indonesia, Thailand and Malaysia. The consumers are moving from feature phone usage towards Smart phones/Android based phones at the mid and lower segment of the market base. The reason is an increase of VAS applications on Android platform and data usage being promoted by Operators. The company is also undertaking project based plans to align strategy with operators

The Group has intensified its focus and efforts for collaboration with operators. The first such endorsement by Operators has happened in Malaysia with jointly marketed Android phones in the Malaysia market. This will significantly enhance the company's brand value in Malaysia. The Group continues to make efforts for such alliances with operators in Singapore and Thailand. The Company has also been actively exploring Myanmar market and is in the process of appointing distributors in the country as it plans to open up its Telecom sector. The company plans to focus more in retail sector in Indonesia and plans to move away from Blackberry distribution due to low margins, high operating costs and also the impending future risk perceived by the Company in that business.
