

SUPPLEMENTAL ANNOUNCEMENT

Supplemental

1. The Company refers to the announcement regarding its change in financial year end dated 23 October 2013 (the "**Announcement**"). Unless otherwise defined, capitalized terms used here shall have the meaning given in the Announcement.
2. The Company notes that this will be the third change of financial year end in the past few years. As cited in the Announcement, since the beginning of 2012, the Indonesian business has become the predominant part of the Group's business. However, for the purposes of the tax review by the Indonesian tax authorities, certain components in the financial accounts of the Indonesian Subsidiaries would be reviewed by the authorities on a calendar year basis. Consequently, the Company performs a separate audit for the Indonesian tax review. Bringing the Group's financial year in line with the calendar year will therefore help to save on external audit costs and internal resources.
3. The Company does not foresee any further change in its financial year end in the foreseeable future.
